# FORGETTING PASSWORDS??

THE PASSWORD PROBLEM

1 RISK

- Weak, Stolen or reused credentials are the biggest risk for enterprises.
- Weak or stolen credentials are involved in 81% breaches.

1 TARGET

- Credentials are the easy target of phishing/spear phishing attacks
- Till date industry has no effective solution for phishing.

1 BURDEN

- Every Employee must periodically change the passwords.
- Significant time and cost is wasted to comply with password policy.

None of the above problems are solved with 2FA or MFA. Instead, they just add cost and complexity

THE SOLUTION

Forget Passwords
Go Passowrdless with

Virtual QR

Powered by PureAUTH

Cloud based Authentication platform

Seamlessly integrates with online/offline services & assets

Coupled with HRMS, gives complete control to enterprise

SIMPLE

- Login with a Simple Scan of a QR
- Uniform frictionless experience across all platforms
