

Data Sheet

Bytemonk inTact[®] Solutions

Features

- **Insider Threat Protection** - Safeguard against unauthorized data access and data leakage, both on endpoints and within cloud environments
- **USB Device Control** - Manage and restrict the use of USB devices to prevent data breaches through external storage
- **Network Usage Monitoring** - Monitor network traffic in real-time to identify suspicious activities and potential threats
- **App Controls** - Manage and control the use of web and desktop applications to prevent unauthorized access and data exposure
- **IT Asset Management** - Gain visibility into your organization's IT assets, ensuring visibility and security compliance
- **Data Backup and Restore** - Implement automated data backup and recovery processes to safeguard against data loss
- **Risky User Identification** - Identify and proactively address risky user behaviours, helping to prevent security incidents
- **Staff Productivity Monitoring** - Monitor staff productivity while maintaining data security, striking a balance between security and efficiency

Overview

In today's data-driven landscape, safeguarding sensitive information is paramount for organizations of all sizes. At Bytemonk, we understand the critical importance of data security and have developed a suite of solutions to address the evolving challenges of modern data protection

Bytemonk inTact[®] Program is a comprehensive suite of solutions designed to safeguard organization's sensitive information and mitigate data-related risks.

With a focus on Insider Threat Protection, USB Device Control, Network Monitoring, Application Controls, IT asset management, Data Backup, Risky User Identification, and Staff Productivity Monitoring, our program provides robust protection for your valuable data assets.

Benefits

- **Enhanced Data Security** - Protect sensitive data from insider threats and unauthorized access
- **Regulatory Compliance** - Achieve compliance with industry regulations and avoid costly penalties
- **Reduced Data Loss** - Minimize the risk of data loss through robust data protection measures
- **Increased Productivity** - Maintain a productive workforce while ensuring data security
- **Peace of Mind** - Rest easy knowing your data is secure from threats both internal and external.

Service Details

- **Deployment** - Bytemonk inTact® Program can be deployed on-premises, or in the cloud to best fit your organization's needs
- **Support** - Access dedicated support, updates, and maintenance to ensure your data security remains at its peak performance
- **Training** - Comprehensive training for your team to maximize the program's effectiveness

Unlock the full potential of your data security strategy with Bytemonk inTact® Program.
Protect your data, achieve compliance, and bolster your organization's cybersecurity posture.
